I am directed to say that about a year ago the Provincial Government had purchased through the Government of India a number of portable 35 mm. talkie cinema projectors. As this Government have decided to use 16 mm. projectors, some of these projectors have now become surplus to their requirements. There are thirteen of these projectors still with them the details of which are given on the margin. Most of the projectors are absolutely new and only a few have been sparingly used. The cost of each projector is Rs.5,800/-. I am to request you to kindly inform this Government whether the Government of Madras are interested in the purchase of any of these projectors at the above price and if so how many projectors are required by them.
